Re: Centrifugal advance unit of the two-cylinder models

Dear Sirs,

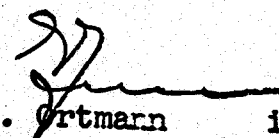

Commencing with frame number

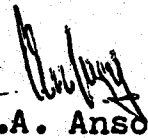

636 000	(R 50)
625 951	(R 60)
658 624	(R 69 S)

a centrifugal advance unit with a modified timing setting - Part No. 80 04 113 - has become standard equipment. The change to the new timing curve was made because in some cases the engines showed a tendency to ping, when accelerating and at a speed of approx. 4,000 r.p.m.

With friendly greetings,

BAYERISCHE MOTOREN WERKE
Aktiengesellschaft

i.V. Ortman

i.A. Ansorg
